Biography

An OG1 Profile turns your career into a clear, credible professional identity that decision-makers can trust at a glance. Your story is packaged so the right opportunities find you and choose you, faster.

Statement

OG1 is more than a network—it's a launchpad. It's a space where high school, college and professional coaches and sports professionals across all sports can connect, grow, and be seen. We built it to empower you in every facet of your journey—from job hunting to recruiting, from building your brand to learning and finding mentorship.

Champion at OG1

Feature

New: Attachments Now in Profile Biographies (v1.1)

You asked for more ways to shine, and we listened. Starting today, all OG1 Coaches can add attachments—like resumes, cover letters, and key documents—to your profile biography

New: Endorsements Tab Now Live (v1.2)

After our official beta launch at AFCA in January, the OG1 Coaches community has helped us shape the platform with real feedback and energy. Now, our second major update is ready—and it's all about leveling up your reputation and making your achievements shine. We're just getting started, so read on, unlock these fresh tools, and make your profile work even harder for you!

PRINCIPLES

- Coach-First Mindset:

Approach every decision with a clear understanding of coaches' goals, time constraints, and career realities.

Support should always help users move forward, not slow them down.

- **Clear, Human Communication:**

Communicate in plain, respectful language that's easy to understand and action. Be professional, approachable, and mindful of the diverse backgrounds across sports and levels.

- **Timely, Reliable Support:**

Respond promptly and follow through with accuracy and care. Coaches rely on OG1 during critical moments, so consistency and dependability matter.

- **Enable Self-Sufficiency:**

Provide guidance, education, and tools that empower users to confidently use the platform on their own. Great support reduces friction and builds long-term confidence.

- **Listen and Advocate for Users:**

Actively gather feedback and surface patterns to the product team. Support exists not just to fix issues, but to improve OG1 on behalf of its users.
